**KINGDOM LEADERSHIP SCHOOL**

*"Activating 21st Century Kingdom Leaders" Acts 2: 42*

Jesus taught much about entering the kingdom and walking or abiding in it. Jesus preached and taught more about what the kingdom of God is like, how it works, and how to enter it, than any other subject. The parables that Jesus taught in the four

Gospels are the richest teaching on the kingdom of God in the Bible. However, what the kingdom of God (the rule /dominion of God) is like and how it

works spans the entire Bible and it is the predominant theme of the Word of God.

The backbone of the religious church for centuries has been studying about God in the Bible. Theology (the study of God) is an intellectual exercise that cannot discover the hidden mysteries of the kingdom that Jesus imparted to His disciples. The supernatural power and heavenly wisdom of God is not obtained through intellectual study. The Bible is a spiritual book that becomes alive only by the Holy Spirit. Intellectual knowledge of the Bible can only produce opinions that are determined in the minds of men. The many different opinions of men in the religious church created schools of thought that divided people into many thousands of powerless denominations.
